

HOW TO ACCESS YOUR MEDIA FILES AFTER A COMPETITION

Please note, it can take up to two weeks after the event for the photos and videos to become available for download

STEP 1: Click COMPETITIONS & select your event location (Events will be added as the media is uploaded).

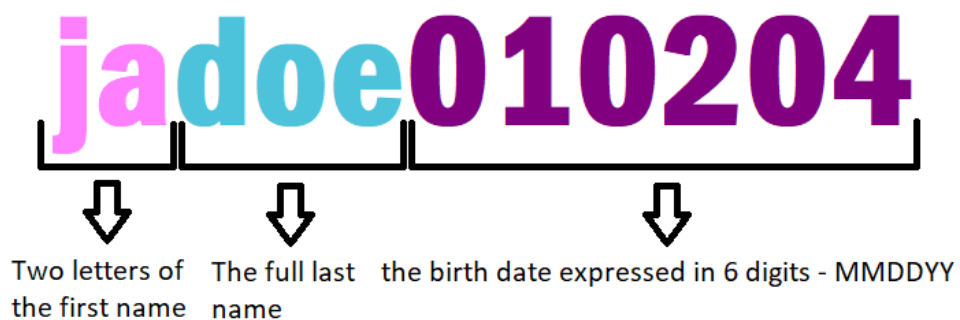

STEP 2: Enter your unique keyword. Keywords will be emailed to studios by FRIDAY the week AFTER your scheduled competition.

Your dancer's unique keyword is the two letters of the dancer's first name, their last name, and their date of birth.

For example, Jane Doe born on 01/02/2004 would be jadoe010204.

*****Please note! The keyword must match the name and birthday provided at the time of registration. If you receive no results for your search, have the studio representative verify how the performer was listed at the time of registration.*****
